

Stock Products

To provide quick, easy ordering and shipping of products while keeping our costs competitive, Flair maintains an extensive inventory of a core group of our most popular products and sizes. This includes various bags, pouches and rollstock film structures available in high, standard and low oxygen and moisture barriers. Orders through our stock program offer quick turnaround times by shipping directly from our warehouses in Calgary, AB; Appleton, WI; Seattle, WA and Guadalajara, MX.

Flair also offers value-added services to customize any of our stock offerings, including rotogravure printing, custom sizes and structures, as well as technical analysis in our in-house Innovation Center, equipped with cutting-edge technology to test and ensure that Flair's products offer comprehensive solutions beyond packaging.

- Resealable Tape

Stock Products

Vacuum Pouches

Commonly used to package processed meats and cheeses. Flair has a variety of features for our nine-layer co-extruded FlairPak® vacuum pouches, including pre-zippered, clear front/printed back and printed safe handling instructions.

M-Seal Bags

Typically known as coffee bags, M-Seal bags can be used for a variety of food products like cookies, tea and snacks, as well as nonfood applications. Available in high barrier foil laminations in many colors, sizes and finishes, with optional tin ties and degassing valves.

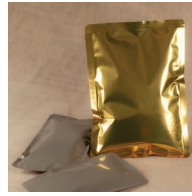

Stand Up Pouches

Stand up pouches provide an excellent way to merchandise a variety of products. Flair offers a vast selection of styles, colors, sizes and zipper closures. Printed, window and clear pouches are available in standard barrier and high barrier structures.

Pre-Zippered Pouches

Flair's pre-zippered pouches offer a convenient solution for products requiring a reclosable zipper feature. Nine-layer coextruded films are available with standard barrier and high barrier properties.

Retort Pouches

Constructed using high quality film laminations, retort pouches are designed to withstand thermal processing and provide extended shelf life after the retort process, Flair has many sizes available in gold with product safety warning printed in black.

Rotisserie Bags

Flair's deli offerings include M-Seal rotisserie bags along with stand up pouches, available with a gloss or matte finish. Bright eye-catching graphics, expertly printed onto superior anti-fog films, make Flair's bags an excellent choice for merchandising a variety of deli food items. Flair's Permazip® technology is available for permanent tamper-resistant packaging.

T-Seal Pouches

Typically known as pillow packs or flat pouches, T-Seal pouches are ideal for packaging small, lightweight portions such as fractional packs of coffee. These pouches are constructed from a high barrier lamination, with a center back-fin seal and tear notches for easy opening.

Rollstock Films

Flair's extensive line of rollstock material includes lidding films, forming and non-forming films and films for VFFS or HFFS are available in low, standard and high barrier options.

About Flair Flexible Packaging Corporation

Flair is a fully integrated supplier of flexible film materials, technology, and design solutions for the food and nonfood industries. Flair prides itself on the ability to offer custom and stock bags, pouches and rollstock films that fit the individual product needs of our customers. Flair provides custom packaging design and printing, in addition to an extensive selection of commonly used packaging items for quick ordering and delivery. A leader in the world of specialty food packaging, Flair's engineering team has created a range of packaging materials designed to meet unique product, process and shelf life demands for customers across many industries.
